

CTP Excavator Gears

CTP Excavator Gears -

An excavator swing gear must handle a complex load range that covers various combinations of thrust, radial and tilting loads.

Prevent failure by conducting regular inspections and maintenance of the swing gear, pinion gear and bearings.

Part No.	Description	Application
1141414	GEAR GP-BR	215
2291077	GEAR GP-BR	312C, 312CL
2316854	GEAR GP-BR	325B
2276081	GEAR GP-BR SWING	320D, 320C, 320CL
5C0451	GEAR G	215B
7Y0745	GEAR G	325
7Y1563	GEAR GP-BR SWING	320L, 320N
8K4127	GEAR G	225, 225D, 229
