

# SPARK PLUGS

CTP Spark Plugs are manufactured to endure extreme temperatures, maximizing engine productivity and performance, as well as simplifying maintenance. The center electrode is made out of top of the line metals that prevents it from deterioration and wear, providing a longer life-span.

**The new design has been improved to provide better reliability:**

- 1** Design optimized to only one piece to prevent possible failures.
- 2** Teflon boot was eliminated.
- 3** Sealing glue and screw joint were removed.
- 4** It comes with a black oxidized shield to improve antirust performance.
- 5** The pre-chamber comes with only one welding.

## CTP Spark Plugs

Part No.	Description	Engine Model
2N2839	SPARK PLUG	3412 GAS
1948518	PLUG-SPARK	3500 GAS
1286238	SPARK PLUG	G3408, 3408C, 3412
2434291	PLUG-SPARK	G3500, G3600
3465123	PLUG-SPARK	G3520, G3508, G3516
1593219	PLUG-SPARK	G3600
2N0553	SPARK PLUG	G398, G3306
