

SEA WATER PUMPS

Our new Heavy Duty Marine pumps are manufactured specifically for marine diesel engine cooling applications. The pumps are engineered with the best materials in the industry to withstand the harsh marine environment. Our quality pumps are designed to provide years of service with little or no maintenance.

- ✓ Coated seals extend seal longevity and durability
- ✓ Stainless steel shaft assemblies provide superior strength and durability
- ✓ High-quality bearings are permanently sealed and lubricated for greater durability and long life
- ✓ Thoroughly tested for reliable, leak-free performance
